Supplied exclusively as loose, free-flowing, sieved lyophilised powder; never as a cake or solid mass.

*Reference appearance only; not a recorded batch observation.*

## NOTES

Sequence: Glu-Asp-Gly

NOTES

Our purity assessments are determined by the analytical results obtained through rigorous testing. NMR and Elemental Analysis (where applicable) are conducted with a precision range of ±2%. Isotopic purity is evaluated based on the mass distribution data observed. Please note that specifications are subject to revision without prior notice, and the values provided reflect the most current and accurate information available

Suitable for shipment at ambient temperature, provided the product is protected from UV light.
Long-term storage: Store frozen at -20 ˚C.
